

CC-14

NIGHT VISION MONOCULARS

The CC-14 represents unique ergonomic design that allows convenient single-handed operation and dramatically minimizes the probability of User errors in extreme operating conditions.

Dual-Bridge mounting bracket allows transferring two pieces of CC-14 into binoculars-goggles CC-15. Depth perception of such a "dual tube" device allows using this set for operating various machines, boats, aircraft etc., in addition to basic ground operations. A "dual tube" night vision optical system has proved to be more effective and safe for use in low light conditions.

Specifications:

• Magnification:	1X
• Eye Relief/Objective (mm):	27 / 26
• Field of View:	40°
• Range of Focus:	20 mm to infinity
• Diopter Adjustment:	+6/-4
• Waterproof/Submersible:	Yes (IP67)
• Built-In IR Illuminator:	Yes
• Battery Type:	1pc, CR123
• Battery Life:	50+ hours
• Mass (w/o IIT):	280 grams
• Dimensions (mm):	105x63x50

Image Intensifier Tube

- Choice of: Gen. 2+, SuperGen™, XD-4™, XR-5™, ONYX
- Resolution: 45-73 lp/mm
- High photoresponse
- Small halo & Auto gated

CC-14

CC-14 Mounting Accessories & Usage Options:

Eyepiece

Equipped with 27 mm eyepiece

Quick-Release Weapon Mount

Quick Release Weapon Mount

Magnification

Snap-On 3X magnification lens or interchangeable 7X and 10x magnification lenses

Flip-Up Type Head Gear Mount

"Flip-Up" type Head Gear with adapter

Infrared Laser Illuminator/Aimer

Infrared Laser Illuminator/Aimer

Flip-Up Type Helmet Gear Mount

"Flip-Up" type Helmet Mount with adapter

Camera Adapter

Camera adapter 37/52 mm

Dual-Bridge Mounting Bracket

Dual bridge mounting bracket

Can Be Used as Mini Weapon Sight

Compatible and adaptable to most laser, reflex, "red dot" sights or may be used as mini weapon sight with built-in laser aimer and quick-release weapon mount (QRM-14)

Dual Tube Head Gear/Helmet Mount Adaptable

"Dual Tube" head gear/helmet mount adaptable
