

Maxa Beam ERT

Emergency Response Team Kit

The Maxa Beam Emergency Response Kit from Current Corporation features all you need in one complete kit.

The MBS-410 Series Searchlight includes a motorized zoom that allows Variable Beam Size from a 1° spot to a 40° flood. It also has one-handed control of all functions.

Patented design allows batteries to snap on and off the light in seconds without the use of tools for quick and easy battery replacement in the field. Other accessories are available for these lights, including a full line of Alternate Beam Pattern Filters that easily slide and lock into place.

Kit Includes:

- Maxa Beam Searchlight
- Battery packs (2)
- Filters
- Power & tools
- Shoulder strap
- Pelican case
