

PRODUCT INFORMATION

Discrete, powerful and reliable

Game camera MINOX DTC 500 with integrated display

Because game cameras have become so popular in the hunting and gamekeeping sector MINOX is extending its range of products with the introduction of the extremely compact MINOX DTC 500. Measuring just 153 x 114 x 66 mm it is practically half the size of conventional models, meeting the classic MINOX values of highest precision in the smallest possible space. Discrete, intelligent and powerful - this convenient game camera is an extremely helpful and reliable tool for the observation and management of game in any terrain.

Hunting grounds always in sight – with the MINOX DTC 500 wildlife cameras

The new MINOX DTC 500 is equipped with a 5 megapixel sensor and delivers outstanding imaging quality with pin-sharp details, high contrast and natural color rendition. With video recordings of 10 to 60 seconds the user can keep track of animal activities around the clock. The high performance infrared flash with a range of up to 15 meters delivers reliable shots, even in unfavorable light or in twilight. Thanks to its extremely short shutter lag of just 1 second and a battery life of over 6 months, the new DTC 500 is a very reliable companion out in the reserve.

Bestell-Nr.	60674

For capturing powerful images and video clips of animals in the wild or analyzing their movements this powerful and compact MINOX DTC 500 is one of the best game cameras around. It documents all the details in each shot, specifying the date and time, temperature and moon phase, which animal was where, when and for how long. All

data are stored on a SD card and can be immediately viewed in the integrated 2.5" display or transferred to a computer or television via USB port.

The reliable camera technology is protected by a robust and weatherproof plastic body that prevents the penetration of water, dust, cold and heat. The new MINOX DTC 500 comes with mounting strap, USB and TV cable.
