

CS 8065

Border / Coastal Surveillance / Mobile Surveillance & Intelligence

CS 8000 Series

Electro-Optical / Infra-Red camera system

CURRENT SECURITY electro-optical infrared cameras are the new generation of rugged and low maintenance turrets for land-based missions. The **CS 8065** is a single payload integrating a **MWIR cooled thermal imager** and **High-Definition Day/Low light camera** for border, coastal surveillance, as well as mobile surveillance & intelligence, and critical infrastructure surveillance applications. It is controlled through IP network on board or remotely. This COTS system is built to MIL Std.

APPLICATIONS

- Land Based Security
- Coastal surveillance
- Border surveillance
- Critical and Infrastructure Surveillance Applications
- Port Security
- Facility Protection
- Wind Turbine Fields

BENEFITS

- **Rugged & low maintenance** design
- **Zooms 80x** in MWIR Cooled Thermal and **360x** in HD day
- **Detects** a NATO target over **20km**, night and day
- **Provides a clear, highly detailed image**, in HD day camera, even into the digital zoom range
- **Day Camera selection:** HD, 4K, 800mm or 1000mm
- **Increases object detection** in low level of light with best of class low light sensitivity
- **Tracks** third party sensor targets
- **Video Tracking**
- **Streams H.264 (HD)** video with PiP or two video streams and **communicates digitally** over IP network (Ethernet)
- **Outputs video in dedicated coax cable in SDI**
- **Enables Picture in Picture (PiP)** of two live video signal outputs (zoom synchronized or independent)
- **Single LRU** with no junction boxes or interface modules simplifies installations and retro fits, while reducing maintenance
- **Standard mounting and cabling** for all CS 8000 series enables ease of payload swaps and future upgrades
- **Designed to withstand marine environmental conditions** and proven by over 15 years and hundreds of successful operating installations worldwide
