

RUGGED. MARITIME. GYRO-STABILIZED. LOW MAINTENANCE

c/w NON-LETHAL DETERRENT Laser Dazzler

NN 4000 Series

Electro-Optical/Infra-Red camera system
c/w NON-LETHAL DETERRENT Laser Dazzler

The Night Navigator™ 4425 is a rugged, low maintenance, compact electro-optical system designed and military paramilitary end users. Mast mounted payload, this imaging system offers exceptional performances. It integrates a **LWIR uncooled thermal imager**, a **HD day camera / low light** and a **NON-LETHAL DETERRENT Laser Dazzler** in a **gyro-stabilized** sensor platform. It can be controlled from the bridge of a ship or through IP network in a control room or remote location. This COTS system is built to MIL Std.

APPLICATIONS

- ISR (Intelligence, Surveillance and Reconnaissance)
- EEZ (Exclusive Economic Zone) protection
- Long-Range Surveillance
- Unmanned Surface Vessels operation
- Autonomous Vessels
- Maritime SAR
- Safety and security at anchor and in the harbour
- Tracking of potential threat or man overboard
- Situational awareness
- Anti-smuggling operations

BENEFITS

- **Rugged, marine, low maintenance** design
- **Zooms 24x** in LWIR uncooled thermal and 360x in HD day
- **Detects** a NATO target at over 7km, night and day
- **Provides a clear, highly detailed image**, in HD day, even into the digital zoom range
- **Increases object detection** in low level of light with best of class low light sensitivity
- **Measures** the distance to target with the Integrated Laser Range Finder
- **Delays, denies, and defeats potential threat** with the high power non-lethal green Laser Dazzler, integrated into the payload for optimized convergence of sensors activity
- **Tracks** Radar cursor, ARPA Target, AIS and video targets
- **Streams H.264 (HD)** video with PiP or two video streams and **communicates digitally** over IP network (Ethernet)
- **Outputs video in dedicated coax cable to the bridge in SDI**
- **Enables Picture in Picture (PiP)** of two live video signal outputs (zoom synchronized or independent)
- **Single payload** with no junction boxes or interface modules simplifies installations and retro fits, while reducing maintenance
- **Standard mounting and cabling** for all Night Navigator 4000 series enables ease of payload swaps and future upgrades
- **Designed to withstand marine environmental conditions** and proven by over 15 years and hundreds of successful operating installations worldwide
